Life Maps

Your teacher will assign you to one of the five couples who came to Buxton.

Go to the Resource page for your couple. Listen to their story. Research more about this couple by investigating the other resources available on your couple's page.

Think about the different times and events in the life of your chosen couple. Choose either the husband or the wife.

Create a visual illustration of the life of your chosen person, by creating a life map for them. Be sure to include different times in their life. Look at the life map of John Riley as an example.

Do not put a name on your life map. Your teacher will assign a number to your map. Display the map with the maps of your classmates.

Look at all the life maps done by members of your class. Try to identify all the life maps of the couple you have been assigned.

"Life Map of John Riley"
